Kitchens More Than \$100,000

SILVER

Charco Construction, San Diego

The goal was to transform a ranch-style home into a chic, yet comfortable and contemporary, family home. The kitchen had a cramped feel with low ceilings and a U-Shaped configuration. Dated wood wall paneling, wallpaper, linoleum flooring

and scalloped trim detail were eliminated in favor of design elements that would make the home more current. The existing layout was reorganized, and finishes were chosen to make the kitchen harmonious with the simultaneous whole-house remodel.
